

Doctor Dollar's Magic Salad

for 2 to 12 players

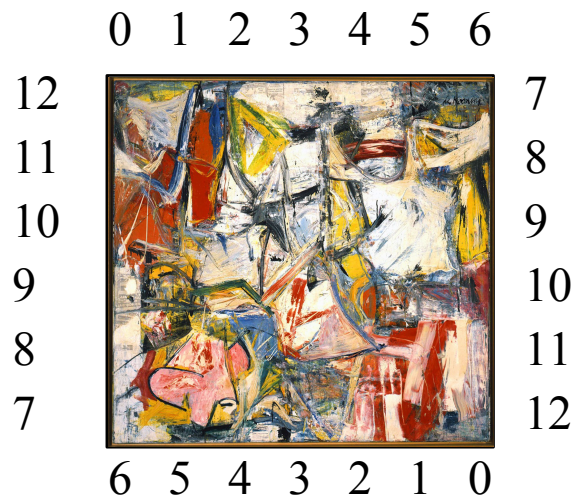

Dennis Báthory-Kitsz

Instrumentation: Tambourines, hand drums, claves, finger cymbals, whistles, wood flutes, pitch pipes, boxes, thumb piano, bells, voices, etc.

Texts: Spanish dictionary, Italian dictionary, Rabelais works, German teaching text, anthology of literature, RCA receiving tube manual, etc.

Score aid: *Gotham News* (Willem de Kooning); Double-Twelve dominoes (91 pieces).

Performance: Half the players choose dominoes, and each may announce the pair of numbers; the score is numbered along its edge —

— and the line (about one inch wide) between the two points (determined by the domino) is the notation to be performed. Colors, intensities, contrasts, rhythms, impressions along the line are to be played, sung, or otherwise performed. The length of the lines determines the length of the sections; boundaries are flexible, and interaction may change the directions described here.
