

2008 INSTRUCTORS

DAILY ACTIVITIES

9:00AM - 5:00PM

“THINK HARD, THINK TWICE”

Our program is balanced to every child's needs and skills. No child is pressured, but each is challenged and encouraged to achieve.

Winning chess tournaments is a distant second to our primary goals of developing problem-solving skills and a sense of accomplishment and self-esteem.

Our campers study notation, basic principles, tactics and strategy, thus developing respect and admiration for the great players who have gone before.

“THINK HARD, THINK TWICE” is not about winning, it is about doing your very best.
